that will reawaken your consciousness*

DAMANHUR

What is our soul?

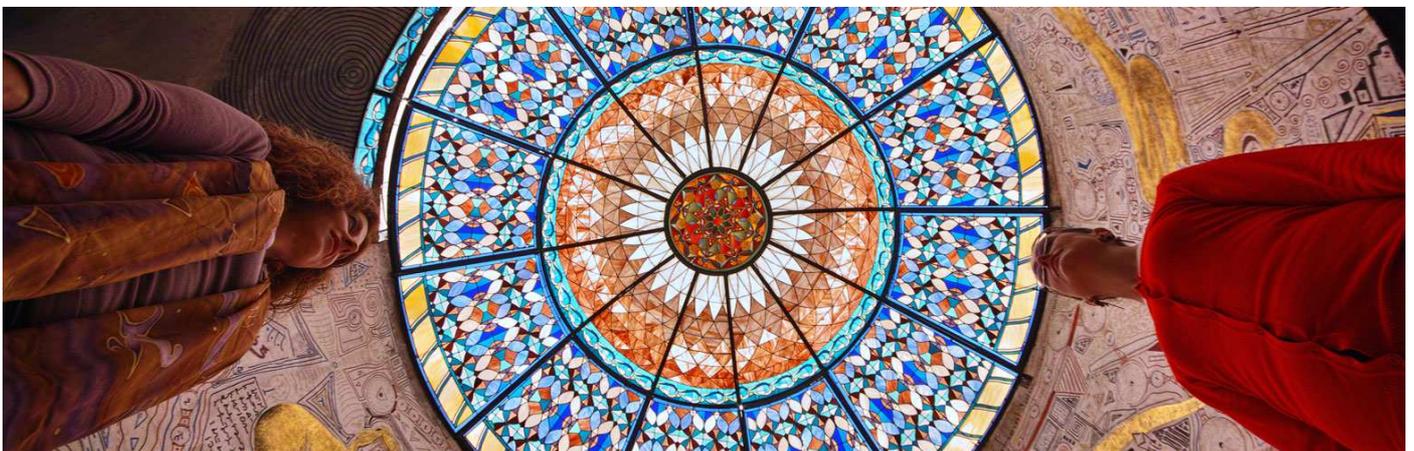

Is there an evolutionary Mission involving Humanity as a whole?

What is my role in all this?

Which powers can I revive and how can I be aware of them?

How close to us are the cosmic forms of intelligence, which determine the direction of our evolution?

What is the new alliance with the Divine plane for the new Millennium?

Mystery School gives you the necessary knowledge, practical and active tools to find the answers to these questions, through the original and totally innovative vision brought to us by Falco Tarassaco and, over time, developed in Damanhur. This vision has revolutionized the basic assumptions of classic esotericism and makes Damanhur a unique place in the world, where spirituality, social relations, knowledge and experience converge in everyday life. During the three-year program and an optional Master of two additional years, Damanhur's Mystery School offers participants the opportunity to focus on the potential of their talent and soul.

By linking together Microcosm and Macrocosm, the program allows us to identify our soul's path through time and space, in order to become aware of our evolutionary Mission at a personal level, as well as for Humanity as a whole.

The inner light this program brings, gives us the power to recognize the necessary choices and accelerate the process of evolution to finally achieve the realization of the Human Being.

This guided journey includes the following subjects: Philosophy and Spiritual Physics, Inner Harmonization, Research of Past Lives, Astral Journey, Dreams, Ancient History of Humanity, The Discovery of Self, Reawakening of the Inner Senses, How to Recognize our Inner Answers...

HOW THE PROGRAM IS STRUCTURED

The Mystery School program develops over a period of three years. The required attendance is one weekend dedicated to each subject. Alternatively, the participants can choose the intensive formula – 20 days once a year – which is particularly suited to people coming from far away.

The personal growth of each individual and of the group – which represents the alchemical, living container of all the experiences – is facilitated by a Tutor, who acts as a point of reference and is always at the participants' disposal.

THE FIRST YEAR

A window opens towards our inner world and the view in front of us, under many aspects, is quite unexpected. The subjects, analysed according to the perspective of the ancient wisdom, will include the ancient history of humanity, the laws regulating matter and its interaction with the spirit, the dimensions of time, both at a universal level and a personal level, through fascinating insights in our past lives. Finally, we will be able to identify our core talents and activate the Soul's Senses.

The first year, called “**The Opening of Self**”, includes the following subjects:

- Spiritual Physics 1
- Inner Harmonization 1
- The Paths of the Dream 1
- Ancient Civilizations of Humankind 1
- Past Lives Research 1 and 2
- Astral Travel 1
- In Search of Oneself
- Inner Answers
- Reawakening of the Inner Senses 1

THE SECOND YEAR

In the next circle of the spiral we can examine further in depth the subjects presented in the first year. Participants will discover that the level of awareness they have achieved at the end of the first year is only one step along the developmental path designed by the School.

The second year, called “**The Empowering of Self**”, includes the following subjects:

THE THIRD YEAR

The completion of our developmental path. Each participant benefits from personal tools to become an active and mindful key player in changing and transforming others and the world. Every human being has a unique, once-in-a-lifetime purpose, a mission to accomplish, in the Great Plan to bring back humanity to the full realization of its divine nature.

The third year, called “**The Mission**”, includes the following subjects:
